INTERNSHIPS

MotionCut

Web Development Internship

[August 2024 – Sept 2024]

- Worked on end-to-end development of multiple projects, handling both front-end and interactive UI components using HTML, CSS, and JavaScript, ensuring responsiveness and smooth user experience.

InnoByte Services

Web Development Internship

[July 2024 – August 2024]

- Contributed to multiple web-based projects, enhancing functionality and implemented automation solutions to streamline repetitive web development tasks, improving efficiency.

Projects

Code pen with React

- Description:** A Code pen clone built with React, allowing users to experiment with HTML, CSS, and JavaScript in real-time.
- Features:** Enables live code preview and editable panels with auto-save functionality to local storage, ensuring that work is preserved across sessions.
- Technologies Used:** React, JavaScript, and CSS for responsive design and UI, providing an efficient platform for web development practice.

Customizable Data Dashboard

- Description:** A full-stack data dashboard designed for predictive analysis and real-time data visualization.
- Key Features:** Supports dynamic content updates, user-defined data display configurations, and real-time data filtering.
- Technologies Used:** React, CSS, and JavaScript for frontend, with integrations for managing diverse data inputs.
